

# PATHWAYS TO READING

## LEVEL I

### Training Goals:

- Increase teacher knowledge about the Science of Reading.
- Increase teacher knowledge on the 5 components of reading: Phonemic Awareness, Phonics, Fluency, Vocabulary, and Comprehension.
- Increase teacher knowledge on how to effectively and efficiently teach students how to read.
- Provide assessments and intervention strategies for students demonstrating reading difficulties.

### About Level 1 Training:

[www.pathwaystoreading.com](http://www.pathwaystoreading.com)

The 5-day training is designed to assist the teacher in understanding phonemic awareness and phonics and the relationship to the development of reading and spelling preventively and remedially.

Participants will learn about recent research findings and conclusions. They will learn how to assess and teach phonemic awareness and phonics and integrate the instruction with the other research-based components of fluency, vocabulary and comprehension. Participants learn how to differentiate and pace small group instruction as they provide tier 1 through tier 3 support in an MTSS/RTI model.

### Who Should Attend:

- Teachers of grades K-2.
- Special education, Title 1, reading teachers, EL teachers, and intervention teachers of all grade levels.
- 3rd-12th grade regular classroom teachers who support students with decoding difficulties.
- Para-professionals who assist with student instruction.
