**Succeed 2020** is a statewide education and workforce initiative that began in 2012. Since 2012, RESP has invested these dollars to build a series of improvements within middle and high schools, with the long-term goal to assist in the successful transition from school to college and careers.

RESP Succeed 2020 works collaboratively with a wide range of partners to create and implement activities in three core strategies:

- Ongoing college and career counseling and planning.
- Targeted and coordinated supports.
- Access to and success in rigorous academic and CTE preparation.

The Succeed 2020 program has three key progress indicators:

- Higher ACT scores
- On-time secondary and post-secondary completion
- Reduced need for developmental/remedial course
